

Norwegian Airlines Cabin Information

Cabin One

Sky (Economy) on 737-800s

- LED mood lighting to add a feeling of spaciousness and improved cabin perception
- Possibility to emulate sunrise and sunset for improved passenger comfort and ambience
- Large, pivoting overhead stowage bins designed to add to the openness of the cabin
- Integrated speakers in each row's passenger service for improved sound and clarity of public address operations
- New, integrated air vent and noise reducing materials, reducing overall cabin noise by up to 2db
- Modern, sculpted sidewalls which adds to cabin width
- More legroom with new Recaro seats
- Reduced emissions due to lighter interior, meaning lower fuel burn

Cabin Two

Sky (Economy) on the 787 Dreamliner

- A spacious, comfortable look with soft LED lighting, thoughtfully balanced for leisure, work or rest
- Large windows – 30% larger than today's similarly sized aircraft
- Dimmable windows – regulate the intensity of light coming through the windows with the touch of a button
- Plenty of space for storing personal belongings
- Cleaner cabin air and less air pressure, meaning less headache, less nuisance and less jet lag

Cabin Three

Premium

- Lounge access [at selected airports](#)
- Fast Track [where available](#)
- Comfortable seat in the Premium cabin with 46 inch legroom
- 2 checked bags x 20 kg included
- Seat reservation
- Complimentary drinks before departure
- Pre-dinner drinks
- 3-course dinner including drinks
- Breakfast
- USB charger and power outlet by your seat
- State-of-the-art touch screen entertainment system
